

GROVEMENUS POINT OF SALE (POS)

The Grove Menu Point of Sale (POS) system is fully integrated with our other products. This means that all daily, static, restaurant style, specials, and any other menu items you use in Grove Menu will, in real time, be synced with the POS. The production data and resident information from Grove Menu will also sync automatically. This means a simpler experience and greater flexibility to make changes on the fly.

The POS allows users to take orders table side, at the register, from a resident's room, or anywhere you have an internet connection.

No Set Up Fees

- The Point of Sale is easy to get started with. There is no big installation or setup necessary. Everything can be done via a phone, tablet, or computer. The system can be used with or without a ticket printer. If you use a ticket printer, we make it easy to connect it to the app. The training and set up process is done over the phone or a zoom call. We can have you up and running in less than an hour.

Small Monthly Fee

- No need for large contracts and big payments. With a system that is seamless and easy to use we charge a simple flat monthly fee.

Full Integration with the Menu

- Unlike other Point of Sale systems, ours is built on top of the menu. This means that everything is connected in real time and there is no need to manually input menu items or worry about errors between systems.

Hardware Costs

- The system works on both Android and Apple tablets and phones. A ticket printer can be used but is not necessary.
- \$500 - \$2000 average hardware costs per facility.

FEATURES

Menu Integration:

Automatic and seamless integration for all menus and menu items from Grove Menus to the Point of Sale. Any change made in Grove Menus on the Menu immediately updates onto the POS.

Special Diets:

Any of the special diets from Grove Menus can be selected for the resident and those restrictions show up on the ticket that the kitchen sees. This is all done automatically.

Dining Area	Ticket #	Server #	Time	Table	Guests
Dining Room	1	Test	11:10	1	1

Clause, Santa Regular, Mech Soft Chp
ALLERGIES: Candy Corn, Pumpkin Pie, Easter Eggs, Hot Dogs
 Portion: Double

Lunch

Turkey Roast (No Onions, Gravy to the Side)
 MS Chp: Turkey should be soft, well-cooked and 1/2 inch diced. Moisten with gravy thick enough so liquid doesn't separate from solids.

Buttery Carrots
 MS Chp: Carrots should be soft, well-cooked and 1/2-inch diced.

Baked Roll
 MS Chp: Rolls must be pre-gelled/soaked until gelled through entire thickness. Well moistened rolls cut in bite size pieces are allowed on an individual basis. (Moisten with syrup, jelly, margarine or butter.)

Beverages

Coffee

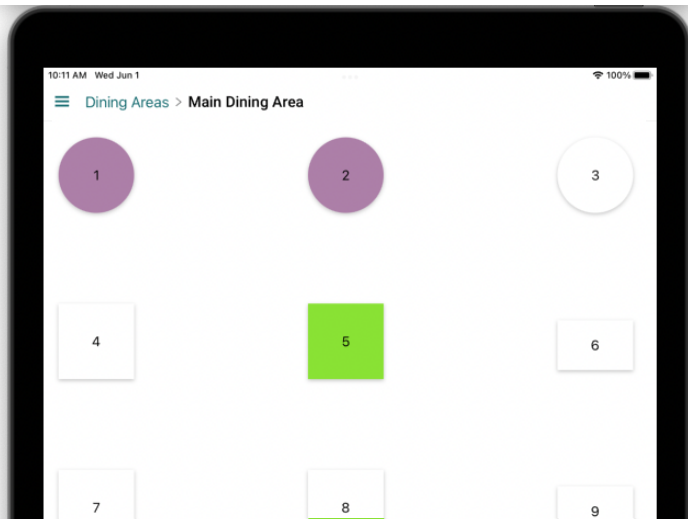

Juice

Order Taking:

Select Resident, the available options for that resident pull up and selections are made. Notes or edits to each individual item can be made to handle special requests.

Dining Rooms and Tables:

Set up a custom schematic for tables for multiple dining rooms.

Resident Module:

Information on residents can be stored and that information is reflected on the throughout the point of sale.
